EasiComply Fire Log Book

EasiComply
Compliance Made Simple ✓

Our EasiComply Fire Log Book is the new, simple and very affordable way to systematise your fire protection compliance procedures.

It has received commendations from a number of fire officers and risk assessors as being well presented, clear and concise and for providing detailed guidance in all your legislative responsibilities.

In short, EasiComply is the perfect way to manage and demonstrate your organisations commitment to fire safety and compliance onsite.

Whatever size your organisation is, the same fire safety legislation applies to you as to anyone else - which is why EasiComply is the fire safety management system that every company needs.

To be able to comply with legislation, it's essential that you first can clearly understand your responsibilities - which is what

makes EasiComply unique. It has an extremely exhaustive resource, information and instructions section to help you understand your duties as the responsible person - this helps you ensure you're complying with current legislation - protecting yourself and your company from the risk of fire and

the potential for subsequent litigation.

A completed EasiComply Fire Log Book is a very impressive display of compliance that you can present to any certifying or legal body - making it perfect not just for keeping you safe but also for proving your commitment to fire safety compliance

EasiComply - The Solution, & what makes it special

Our new EasiComply Fire Log book is a simple, yet exhaustive Fire Safety Compliance System which enables you to control and manage your fire protection procedures onsite. Using the EasiComply Fire Log Book you can manage all of your compliance records for all your different systems from one single location, including space for any engineer service reports, certificates, risk assessments and site plans.

The EasiComply Fire Log Book makes it easy to standardise compliance systems across multiple sites and sends a strong message to anybody using or inspecting it that you fire safety seriously. It's simple to use layout saves you time, and a detailed instructions section gives users an insight into their responsibilities.

- The first section is dedicated to useful and easy to follow notes and instructions detailing the duties of both the User and the Service Engineer across all industry areas.
- Sufficient Record Sheets to last 5 years (Based on BS Test Frequencies)
- Easy to use segmented format with rigid tab dividers.
- Separate sections for each key area of the industry (see below for more details on the section breakdowns)
- Separate record pages for User and Engineer maintenance to allow clear and simple cross-referencing of compliance.
- Gusseted Wallet (up to 20mm capacity) for safely filing drawings and certificates.
